Description of the discipline

The purpose of the discipline is to form in students a holistic system of knowledge and skills in the field of copyright in relation to the classification and basic features of intellectual, creative activities on copyright objects, conditions and grounds of turnover of property rights to copyright objects; ways to protect copyright and related rights.

After mastering the discipline, students must demonstrate the following learning outcomes: systems of legislation governing relations in the field of copyright and related rights; conditions of legal protection of works and objects of related rights; grounds for acquiring copyright and related rights; conditions of lawful use of objects of copyright and related rights; types of contracts for the disposal of property copyrights and related rights; types of infringements of copyright and related rights and methods and procedure for protection against infringements.

Distinguish objects of copyright and related rights from other information resources; determine the compliance of the object with the conditions of legal protection of works; to consolidate the fact of creation of the work, to make an application for copyright registration; exercise the rights to free, official and custom-made objects; determine the conditions of lawful use of objects; distinguish between lawful and improper use of copyright and related rights; to conclude contracts for the disposal of copyright; determine the methods of protection of intellectual property rights and the procedure for applying for protection.

Course structure

Hours (Lec. / Sem.)	Topic	Learning outcomes	Task
2/1	Topic 1. General characteristics of international intellectual property law. Intellectual property law in Ukraine.	Upon completion of the course students gain knowledge about intellectual property law in Ukraine. Origin, formation and development of intellectual property. The concept of intellectual property and its types. The concept of intellectual property rights. The content of intellectual property rights. Legislation of Ukraine on intellectual property.	Tests, questions
2/1	Topic 2. Sources of legal regulation of intellectual property rights.	Upon completion of the course students gain knowledge about concepts and types of sources of intellectual property law. Evaluation policy

- ● **Deadline and Recompilation Policy:** Entries that fail to meet deadlines without good reason are rated lower (-20 points). Relocation of modules takes place with the permission of the dean's office if there are good reasons (for example, due to illness).
- ● **Academic Integrity Policy:** All written works are checked for plagiarism and are allowed to be defended with correct text borrowings of no more than 20%. Write-offs during tests and exams are prohibited (including the use of mobile devices). Mobile devices may only be used during online testing (for example, Kahoot).
- **Attendance policy:** Attendance is a mandatory component of the assessment for which points are awarded. For objective reasons (e.g. illness, international internship) training can take place online in consultation with the course leader.

Evaluation

The final grade for the course is calculated as follows:

Module 1		Module 2	Module 3
40%	40%	5%	15%
Ongoing evaluation	Modular control 1	Training	Independent work
The grade is determined as the arithmetic mean of the grades obtained during practical classes (classes 1 to 7). Each student must be assessed at least once every two classes and receive at least three grades. Missed practical classes must be made up during consultation hours, otherwise they are considered a grade of '0' and are taken into account when determining the arithmetic mean. For applicants studying on an individual schedule, the current assessment is carried out during consultations and by completing tasks in the Moodle system. Current assessment is carried out through oral questioning, preparation of scientific reports, problem solving, testing through the Moodle system in practical classes	Module control is planned after 7 practical classes and covers topics 1 to 9, and involves completing 20 test tasks and two tasks	The grade is determined as the arithmetic mean of the grades received for completing the training tasks.	The grade is determined as the arithmetic mean of the grades obtained for completing various tasks related to the preparation of a research paper (essay, research article, abstract), an abstract to a research article, and participation in scientific conferences. The module 'Independent work' can be credited upon confirmation of the results of the relevant certificate of participation in the School of Polish and European Law, the School of European Union Law, the School of European Contract Law.

Grading scale:

On the scale university	On the national scale	On the ECTS scale
90-100	excellent	A (excellent)
85-89	good	B (very good)
75-84		C (good)
65-74	satisfactory	D (satisfactory)

60-64		E (enough)
35-59	non-satisfactory	FX (non-satisfactory with possibility of repeated passing)
1-34		F (non-satisfactory with repeated course of lectures)
