

On the occasion of the **60th anniversary of West Ukrainian National University**
THE DEPARTMENT OF INFORMATION AND COMPUTING SYSTEMS AND CONTROL

invites students and young scientists to participate in the 1st International Scientific and Practical Conference of Students and Young Scientists **“ICSPM 2026: Intelligent Computing Systems and Project Management”** is hosted by the Faculty of Computer Information Technologies of West Ukrainian National University

The *aim* of the conference is to create an international scientific communication platform for the exchange of research results, ideas, and practical developments in the fields of intelligent computing systems, software technologies, artificial intelligence, data analytics, digital technologies, and project management.

The conference will promote the scientific activity of students and young scientists by encouraging interdisciplinary collaboration, supporting the integration of young scientists into the international academic community, and creating conditions for discussing modern approaches, methods, and practices in digital transformation, innovation, cybersecurity, and automated computing technologies.

Working languages of the conference: Ukrainian, English.

Participants are invited to present papers, join the discussions, and demonstrate their own developments and innovative products.

Forms of participation: in-person and online.
